AMENDMENT UNDER 37 C.F.R. § 1.111 Attorney Docket No.: Q88424

Application No.: 10/541,019

Please delete the present Abstract of the Disclosure.

Please add the following new Abstract of the Disclosure:

The present invention provides a pharmaceutical preparation that can improve absorption

of a pharmaceutical compound in the gastrointestinal tract and that provides, through oral

administration or like method, a blood concentration from which sufficient remedial effects can

be expected. The invention is directed to a pharmaceutical preparation exhibiting excellent

gastrointestinal absorbability comprising a compound recognized by a proton-coupled

transporter and a pH-sensitive polymer in an amount sufficient for the gastrointestinal tract to

acquire a pH at which the proton-coupled transporter optimally absorbs the compound into a cell.
